A Pictorial History of Chrysler Corporation Cars Chrysler Corporation 1973

American Cars, 1960-1972 J. "Kelly" Flory, Jr. 2014-01-10 The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the "need for speed" characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960–1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.

Challenger And 'Cuda Robert Genat 2005 Chrysler entered the pony-car market with the capable but unlovely Barracuda in the early 1960s. The car was refined over the years, becoming a true muscle car, and a rather handsome one at that, but it wasn't until the advent of the E-body pony cars from 1970-1974—Barracudas, the Dodge Challenger, and Plymouth 'Cuda—that Chrysler became a true player in the pony-car market. This book tells the story of Chrysler's pony car series, from the advent of the original Barracuda in 1964 to the final days of the smog-motored Challengers and 'Cudas of the mid-1970s, focusing on the series' heyday in the early 1970s.
