The Ford Transit Story Giles Chapman 2011-10-01 'White Van Man' is a larger-than-life presence on Britain's road, but he's no fool. Given the choice, he inevitably opts for a Ford Transit...and indeed he has been doing so, more than for any other van, for the past 45-plus years. Why? Because the Transit better suits the needs of working drivers than anything else around. Once, vans were mean, narrow, slow and uncomfortable. But in the early 1960s, Ford pooled its European and American experience to create a van that not only did the job – no matter what its final specification, power or payload – but did it with broad-shouldered muscle and a driver-friendly environment. Ford has constantly refreshed the Transit, carefully improving every aspect of it, but has never diminished its totally fit-for-purpose character. And it remains a mainstay of Britain's motor industry, no matter what. Here, award-winning writer Giles Chapman tells the whole, amazing story.

Kingdom of Twilight Steven Uhly 2017-01-12 HISTORICAL FICTION BOOK OF THE MONTH - THE TIMES One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An S.S. officer is shot dead by a young Polish Jew, Margarita Ejzenstain. In retaliation, his commander orders the execution of thirty-seven Poles - one for every year of the dead man's life. First hidden by a German couple, Margarita must then flee the brutal advance of the Soviet army with her new-born baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. KINGDOM OF TWILIGHT follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former S.S. officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from Displaced Persons camps to Lübeck, Berlin, Tel Aviv and New York, as they try to make sense of a changed world, and of their place in it. Hypnotically lyrical and intensely moving, Steven Uhly's epic novel is a finely nuanced and yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity and redemption. For readers of HHHH by Laurent Binet, THE KINDLY ONES by Jonathan Littell, THE ZONE OF INTEREST by Martin Amis, and ALL THE LIGHT WE CANNOT SEE by Anthony Doerr Translated from the German by Jamie Bulloch

Technical Functions Wybo Houkes 2010-03-19 This book is about the functions of technical artefacts, material objects made to serve practical purposes; objects ranging from tablets of Aspirin to Concorde, from wooden clogs to nuclear submarines. More precisely, the book is about using and designing artefacts, about what it means to ascribe functions to them, and about the relations between using, designing and ascribing functions. In the following pages, we present a detailed account that shows how strong these relations are. Technical functions cannot be properly analysed without taking into regard the beliefs and actions of human beings, we contend. This account stays deceptively close to common sense. After all, who would deny that artefacts are for whatever purpose they are designed or used? As we shall show, however, such intentionalist accounts face staunch opposition from other accounts, such as those that focus on long-term reproduction of artefacts. These accounts are partly right and mostly wrong — and although we do take a common-sense position in the end, it is only after sophisticated analysis. Furthermore, the results of this analysis reveal that technical functions depend on a larger and more structured set of beliefs and actions than is typically supposed. Much work in the succeeding pages goes into developing an appropriate action-theoretical account, and forging a connection with function ascriptions.

The Millionaire Next Door Thomas J. Stanley 2010 "Why aren't I as wealthy as I should be?" Many people ask this question of themselves all the time. Often they are hard-working, well educated middle- to high-income people. Why, then, are so few affluent. For nearly two decades the answer has been found in the bestselling The Millionaire Next Door: The Surprising Secrets of America's Wealthy, reissued with a new foreword for the twenty-first century by Dr. Thomas J. Stanley. According to the authors, most people have it all wrong about how you become wealthy in America. Wealth in America is more often the result of hard work, diligent savings, and living below your means than it is about inheritance, advance degrees, and even intelligence. The Millionaire Next Door identifies seven common traits that show up again and again among those who have accumulated wealth. You will learn, for example, that millionaires bargain shop for used cars, pay a tiny fraction of their wealth in income tax, raise children who are often unaware of their family's wealth until they are adults, and, above all, reject the big-spending lifestyles most of us associate with rich people. In fact, you will learn that the flashy millionaires glamorized in the media represent only a tiny minority of America's rich. Most of the truly wealthy in this country don't live in Beverly Hills or on Park Avenue—they live next door.

The Rainbow Carly Schabowski 2021-07-28 There, on the dusty floorboards, was a piece of paper, folded neatly. A newspaper article, written in German, alongside a faded picture of two men in Nazi uniforms staring at the camera. I was about to place it back in the box of forgotten things when something in the text jumped out at me. My breath caught in my chest. I know that name. London, present day. Isla has grown up hearing her beloved grandad's stories about his life as a child in pre-war Poland and as a young soldier bravely fighting the Germans to protect his people. So she is shocked and heartbroken to find, while collecting photos for his 95th birthday celebration, a picture of her dear grandfather wearing a Nazi uniform. Is everything she thought she knew about him a lie? Unable to question him due to his advanced dementia, Isla wraps herself in her rainbow-coloured scarf, a memento of his from the war, and begins to hunt for the truth behind the photograph. What she uncovers is more shocking than she could have ever anticipated - a tale of childhood sweethearts torn apart by family duty, and how one young man risked his life, his love and the respect of his own people, to secretly fight for justice from inside the heart of the enemy itself... An heartbreaking novel of love, betrayal and a secret passed down through a family. Inspired by an incredible true story. The Sponsored Life Leslie Savan 2018-11-26 How do Nike or Pepsi ads convince you that you're a rebellious individual-even while they sell you the same sneakers or sugar water bought by millions? How does a company associated with a disaster, Exxon or DuPont, for example, restore its reputation? What gender and racial stereotypes lurk in TV commercials for beer, cars, cologne, and diamond rings? And what is the deeper meaning of living in an ad, ad, ad world? For more than a decade, journalist Leslie Savan exposed the techniques advertisers use to push products and pump up corporate images. In the lively essays in this collection, Savan penetrates beneath the slick surfaces of specific ads and marketing campaigns to show how they both reflect and shape our lives. Savan's pioneering use of advertising as a lens to examine society and politics made her a three-time Pulitzer Prize finalist. "With unerring perception," the 1992 Pulitzer jury in criticism wrote, Savan "has seen advertising, PR and political chicanery as a new field of socio-aesthetic criticism. Her merciless prose impales both the electronic and print media." Though technology and tastes have changed since Savan's essays first appeared in *The Village Voice*, her analysis is timeless. The fundamentals of exploiting desire remain the same: sex and fear, flattery and patriotism, humor and cool still sell.

"Only the Super-Rich Can Save Us!" Ralph Nader 2011-01-04 "In the cozy den of the large but modest house in Omaha where he has lived since he started on his first billion, Warren Buffett watched the horrors of Hurricane Katrina unfold on television in early September 2005. . . . On the fourth day, he beheld in disbelief the paralysis of local, state, and federal authorities unable to commence basic operations of rescue and sustenance, not just in New Orleans, but in towns and villages all along the Gulf Coast. . . He knew exactly what he had to do. . ." So begins the vivid fictional account by political activist and bestselling author Ralph Nader that answers the question, "What if?" What if a cadre of superrich individuals tried to become a driving force in America to organize and institutionalize the interests of the citizens of this troubled nation? What if some of America's most powerful individuals decided it was time to fix our government and return the power to the people? What if they focused their power on unionizing Wal-Mart? What if a national political party were formed with the sole purpose of advancing clean elections? What if these seventeen superrich individuals decided to

galvanize a movement for alternative forms of energy that will effectively clean up the environment? What if together they took on corporate goliaths and Congress to provide the necessities of life and advance the solutions so long left on the shelf by an avaricious oligarchy? What could happen? This extraordinary story, written by the author who knows the most about citizen action, returns us to the literature of American social movements—to Edward Bellamy, to Upton Sinclair, to John Steinbeck, to Stephen Crane—reminding us in the process that changing the body politic of America starts with imagination.
