Second Language Acquisition Susan M. Gass 2001 This book is a thorough revision of the highly successful text first published in 1994. The authors retain the multidisciplinary approach that presents research from linguistics, sociology, psychology, and education, in a format designed for use in an introductory course for undergraduate or graduate students. The research is updated throughout and there are new sections and chapters in this second edition as well. New chapters cover child language acquisition (first and second), Universal Grammar, and instructed language learning; new sections address issues, such as what data analysis doesn't show, replication of research findings, interlanguage transfer (multilingual acquisition and transfer), the aspect hypothesis, general nativism, connectionist approaches, and implicit/explicit knowledge. Major updates include nonlanguage influences and the lexicon. The workbook, Second Language Learning Data Analysis, Second Edition, makes an ideal accompaniment to the text.

The Psychosocial Implications of Disney Movies Lauren Dundes 2019-07-11 In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

The Internet Literacy Handbook Betsy Burdick 2006-01-01 Over the past decade, Internet technology, now merging into that of mobile technology, has transformed the multiple facets of life in society across the world, changing work and leisure patterns, and placing greater demands on us as active, democratic citizens. The Internet literacy handbook, intended for parents, teachers and young people throughout Europe, is a guide to exploiting to the fullest this complex network of information and communication. The handbook is comprised of 21 fact sheets, each covering a particular topic on Internet use, from searching for information to setting up blogs through to e-shopping and e-citizenship. These fact sheets offer teachers and parents sufficient technical know-

how to allow them to share young people's and children's voyages through communication technology. They highlight ethical and safety considerations, give insight into added value in education, provide ideas for constructive activities in class or at home, share best practice in Internet use, and provide a wealth of definitions and links to sites that give practical examples and further in-depth information.

Stone in a Landslide Maria Barbal 2011-11-01 The Catalan modern classic, first published in 1985, now in its 50th edition, for the first time in English. The beginning of the 20th century: 13-year-old Conxa leaves her home village in the Pyrenees to work for her childless aunt. After years of hardship she finds love with Jaume - a love that will be thwarted by the Spanish Civil War. Approaching her own death, Conxa looks back on a life in which she has lost everything except her own indomitable spirit. Why Peirene chose to publish this book: 'I fell in love with Conxa's narrative voice, its stoic calmness and the complete lack of anger and bitterness. It's a timeless voice, down to earth and full of human contradictory nuances. It's the expression of someone who searches for understanding in a changing world but senses that ultimately there may be no such thing.' Meike Ziervogel 'Sparse and haunting.' Katy Guest, Independent 'The compression is so deft, the young narrator's voice so strong, so particular, her straightforward evocation of the hard labour and rare pleasures of mountain life . . . so vibrant, that it makes me want to take scissors to everything else I read.' Richard Lea, Guardian 'A Pyrenean life told in a quietly effective voice.' Daniel Hahn, Independent 'There is an understated power in Barbal's depiction of how the forces of history can shape the life of the powerless.' Adrian Turpin, Financial Times 'A masterpiece of world literature and a shining example of the virtuosity of elegant and concise prose.' Pam Norfolk, Lancashire Evening Post 'Air-tight believability.' Matthew Tree, Times Literary Supplement ? INDEPENDENT BOOKS OF THE YEAR 2010 FOYLES BOOKS OF THE YEAR 2010

Common European Framework of Reference for Languages: Learning, Teaching, assessment Council of Europe 2020-05-05 The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ? a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level,

plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ? promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all.

Perspectives on the 'Bilingual Advantage': Challenges and Opportunities Peter Bright 2019-09-05 The claim that multilanguage acquisition drives advantages in 'executive function' is currently an issue of vigorous debate in academic literature. Critics argue that evidence for this advantage has been confounded by unsound or questionable methodological practices, with some investigators abandoning research in this area altogether, indicating either that there is no bilingual advantage or that it is impossible to capture and therefore rule out alternative explanations for group differences. Over the past decade, and against this backdrop, theory has developed from a relatively narrow focus on inhibitory control to incorporate theory of mind, rule-based learning, reactive and proactive control, visuo-spatial memory, and control of verbal interference in speech comprehension. Most recently, authors have claimed that the process of becoming bilingual may also impact on metacognitive abilities. The fundamental issue is whether the limited capacity and goal-directed selectivity of our executive system can somehow be enhanced or otherwise profit from the continuous, intense competition associated with communicating in multilingual environments. However, although this issue has received much attention in academic literature, the question of which cognitive mechanisms are most influenced by the enhanced competition associated with multilingual contexts remains unresolved. Therefore, rather than dismissing this important topic, we advocate a more systematic approach in which the effects of multilingual experience are assessed and interpreted across well-defined stages of cognitive development. We encourage a broad, developmentally informed approach to plotting the trajectory of interactions between multi-language learning and cognitive development, using a convergence of neuroimaging and behavioral methods, across the whole lifespan. Moreover, we suggest that the current theoretical framing of the bilingual advantage is simplistic, and this issue may limit attempts to identify specific mechanisms most likely to be modulated by multilingual experience. For example, there is a tendency in academic literature to treat 'executive function' as an essentially unitary fronto-parietal system recruited in response to all manner of cognitive demand, yet performance across so called 'executive function' tasks is highly variable and intercorrelations are sometimes low. It may be the case that some 'higher level' mechanisms of 'executive function' remain relatively unaffected, while others are more sensitive to multilingual experience – and that there may be disadvantages as well as advantages, which themselves may be sensitive to factors such as age. In our view, there is an urgent need to take a more fine-grained approach to this issue, so that the strength and direction of changes in diverse cognitive abilities associated with multilanguage acquisition can be better understood. This book compiles work from psychologists and neuroscientists who actively research whether, how, and the extent to which multilanguage acquisition promotes enhanced cognition or protects against age-related cognitive or neurological deterioration. We hope this collection encourages future efforts to drive theoretical progress well beyond the highly simplistic issue of whether the bilingual cognitive advantage is real or spurious.

Among Herders of Inner Mongolia Christel Braae 2017-10-20 This is a study of a unique collection of Inner Mongolian artifacts at the National Museum of Denmark. They are described, analyzed and presented in a catalogue of more than 800 items, documenting the daily life of pastoral society in and around the tent, in the herding of the animals, in caravan trade and in hunting, crafts, sports and games, and in ritual life. Information about the objects was obtained during two expeditions to Inner Mongolia in the 1930s led by the Danish author Henning Haslund-Christensen, who had many years' experience of travel and expedition life in Mongolia. This is also a detailed account of the expeditions; of the routes, means and measures, as well as the worries and hopes of the participants; of their struggles with scientific aspirations; and of the conditions for collecting against the backdrop of the Chinese civil war and the Japanese occupation. The First and Second Danish Expeditions to Central Asia took place in 1936-1937 and 1938-1939 respectively. These expeditions were the sole foreign parties with access to the area at the time, and therefore their members were among the few observers of Inner Mongolian pastoral society at a time

and place for which information was, and still is, scant and fragmented. Hence, the material objects and data obtained are of great scientific importance in the documentation of the life and material culture of Inner Mongolian herders in the 1930s - the main subject of the present book.

Overview: MELQO UNESCO 2017-08-14 The Measuring Early Learning Quality and Outcomes (MELQO) initiative began in 2014 as part of the global emphasis on early childhood development (ECD). Led by UNESCO, the World Bank, the Center for Universal Education at the Brookings Institution and UNICEF, the initiative aims to promote feasible, accurate and useful measurement of children's development and learning at the start of primary school, and of the quality of their pre-primary learning environments. Items are designed for children between the ages of 4 and 6 years. Following the premise that many existing tools include similar items, the leading organizations' core team worked with a consortium of experts, non-governmental organizations (NGOs) and multilaterals to build upon current measurement tools to create a common set of items organized into modules for measuring: 1) early childhood development and learning, and 2) the quality of pre-primary learning environments. The MELQO core team and experts also collaborated to outline a process for context-specific adaptation of the measurement modules resulting from lessons learned from field-testing in several countries in 2015 and 2016. The modules are designed to be implemented at scale, with an emphasis on feasibility for low- and middle-income countries (LMICs). A key question addressed by MELQO was the balance between a global tool suitable for use everywhere, and local priorities and goals for children's development. [Introduction, ed]

Second Language Writing Systems Vivian Cook 2005-01-01 Second Language Writing Systems looks at how people learn and use a second language writing system, arguing that they are affected by characteristics of the first and second writing systems, to a certain extent independently of the languages involved. This book for the first time presents the effects of writing systems on second language reading and writing and on second language awareness, and provides a new platform for discussing bilingualism, biliteracy and writing systems.

Temporary People Deepak Unnikrishnan 2017-03-14 Winner of the Restless Books Prize for New Immigrant Writing "Guest workers of the United Arab Emirates embody multiple worlds and identities and long for home in a fantastical debut work of fiction, winner of the inaugural Restless Books Prize for New Immigrant Writing.... The author's crisp, imaginative prose packs a punch, and his whimsical depiction of characters who oscillate between two lands on either side of the Arabian Sea unspools the kind of immigrant narratives that are rarely told. An enchanting, unparalleled anthem of displacement and repatriation." —Kirkus Reviews, starred review In the United Arab Emirates, foreign nationals constitute over 80 percent of the population. Brought in to construct and serve the towering monuments to wealth that punctuate the skylines of Abu Dhabi and Dubai, this labor force is not given the option of citizenship. Some ride their luck to good fortune. Others suffer different fates. Until now, the humanitarian crisis of the so-called "guest workers" of the Gulf has barely been addressed in fiction. With his stunning, mind-altering debut novel Temporary People, Deepak Unnikrishnan delves into their histories, myths, struggles, and triumphs. Combining the linguistic invention of Salman Rushdie and the satirical vision of George Saunders, Unnikrishnan presents twenty-eight linked stories that careen from construction workers who shapeshift into luggage and escape a labor camp, to a woman who stitches back together the bodies of those who've fallen from buildings in progress, to a man who grows ideal workers designed to live twelve years and then perish—until they don't, and found a rebel community in the desert. With this polyphony of voices, Unnikrishnan maps a new, unruly global English and gives personhood back to the anonymous workers of the Gulf. "Guest workers of the United Arab Emirates embody multiple worlds and identities and long for home in a fantastical debut work of fiction, winner of the inaugural Restless Books Prize for New Immigrant Writing.... The author's crisp, imaginative prose packs a punch, and his whimsical depiction of characters who oscillate between two lands on either side of the Arabian Sea unspools the kind of immigrant narratives that are rarely told. An enchanting, unparalleled anthem of displacement and repatriation." —Kirkus Reviews, Starred Review "Inventive, vigorously empathetic, and brimming with a sparkling, mordant humor, Deepak Unnikrishnan has written a book of Ovidian metamorphoses for our precarious time. These absurdist fables, fluent in the language of

exile, immigration, and bureaucracy, will remind you of the raw pleasure of storytelling and the unsettling nearness of the future.” —Alexandra Kleeman, author of *You Too Can Have a Body Like Mine* “Inaugural winner of the Restless Books Prize for New Immigrant Writing, this debut novel employs its own brand of magical realism to propel readers into an understanding and appreciation of the experience of foreign workers in the Arab Gulf States (and beyond). Through a series of almost 30 loosely linked sections, grouped into three parts, we are thrust into a narrative alternating between visceral realism and fantastic satire.... The alternation between satirical fantasy, depicting such things as intelligent cockroaches and evil elevators, and poignant realism, with regards to necessarily illicit sexuality, forms a contrast that gives rise to a broad critique of the plight of those known euphemistically as ‘guest workers.’ VERDICT: This first novel challenges readers with a singular inventiveness expressed through a lyrical use of language and a laserlike focus that is at once charming and terrifying. Highly recommended.” —Henry Bankhead, *Library Journal*, Starred Review “Unnikrishnan’s debut novel shines a light on a little known world with compassion and keen insight. The Temporary People are invisible people—but Unnikrishnan brings them to us with compassion, intelligence, and heart. This is why novels matter.” —Susan Hans O’Connor, *Penguin Bookshop* (Sewickley, PA) “Deepak Unnikrishnan uses linguistic pyrotechnics to tell the story of forced transience in the Arabian Peninsula, where citizenship can never be earned no matter the commitment of blood, sweat, years of life, or brains. The accoutrements of migration—languages, body parts, passports, losses, wounds, communities of strangers—are packed and carried along with ordinary luggage, blurring the real and the unreal with exquisite skill. Unnikrishnan sets before us a feast of absurdity that captures the cruel realities around the borders we cross either by choice or by force. In doing so he has found what most writers miss: the sweet spot between simmering rage at a set of circumstances, and the circumstances themselves.” —Ru Freeman, author of *On Sal Mal Lane* “Deepak writes brilliant stories with a fresh, passionate energy. Every page feels as if it must have been written, as if the author had no choice. He writes about exile, immigration, deportation, security checks, rage, patience, about the homelessness of living in a foreign land, about historical events so strange that, under his hand, the events become tales, and he writes tales so precisely that they read like history. Important work. Work of the future. This man will not be stopped.” —Deb Olin Unferth, author of *Revolution* “From the strange Kafka-esque scenarios to the wholly original language, this book is amazing on so many different levels. Unlike anything I’ve ever read, *Temporary People* is a powerful work of short stories about foreign nationals who populate the new economy in the United Arab Emirates. With inventive language and darkly satirical plot lines, Unnikrishnan provides an important view of relentless nature of a global economy and its brutal consequences for human lives. Prepare to be wowed by the immensely talented new voice.” —Hilary Gustafson, *Literati Bookstore* (Ann Arbor, MI) “Absolutely preposterous! As a debut, author Unnikrishnan shares stories of laborers, brought to the United Arab Emirates to do menial and everyday jobs. These people have no rights, no fallback if they have problems or health issues in that land. The laborers in *Temporary People* are sewn back together when they fall, are abandoned in the desert if they become inconvenient, and are even grown from seeds. As a collection of short stories, this is fantastical, imaginative, funny, and even more so, scary, powerful, and ferocious.” —Becky Milner, *Vintage Books* (Vancouver WA)

[Captioning and Subtitling for d/Deaf and Hard of Hearing Audiences](#) Soledad Zárate 2021-01-14 *Captioning and Subtitling for d/Deaf and Hard of Hearing Audiences* is a comprehensive guide to the theory and practice of captioning and subtitling, a discipline that has evolved quickly in recent years. This guide is of a practical nature and contains examples and exercises at the end of each chapter. Some of the tasks stimulate reflection on the practice and reception, while others focus on particular captioning and SDH areas, such as paralinguistic features, music and sound effects. The requirements of d/Deaf and hard of

hearing audiences are analysed in detail and are accompanied by linguistic and technical considerations. These considerations, though shared with generic subtitling parameters, are discussed specifically with d/Deaf and hard of hearing audiences in mind. The reader will become familiar with the characteristics of d/Deaf and hard of hearing audiences, and the diversity – including cultural and linguistic differences – within this group of people. Based on first-hand experience in the field, the book also provides a step-by-step guide to making live performances accessible to d/Deaf and hard of hearing audiences. As well as exploring all linguistic and technical matters related to the creation of captions, aspects related to the overall set up of the captioned performance are discussed. The guide will be valuable reading to students of audiovisual translation at undergraduate and postgraduate level, to professional subtitlers and captioners, and to any organisation or venue that engages with d/Deaf and hard of hearing people.

Reconceptualising Authenticity for English as a Global Language Richard S. Pinner 2016-06-07 This book examines the concept of authentic English in today's world, where cultures are in constant interaction and the English language works as a binding agent for many cross-cultural exchanges. It offers a comprehensive review of decades of debate around authenticity in language teaching and learning and attempts to synthesise the complexities by presenting them as a continuum. This continuum builds on the work of eminent scholars and combines them within a flexible framework that celebrates the process of interaction whilst acknowledging the complexity and individual subjectivity of authenticity. Authenticity is approached as a complex dynamic construct that can only be understood by examining it from social, individual and contextual dimensions, in relation to actual people. Authenticity is a problem not just for language acquisition but one which affects us as individuals belonging to society.

Mismatch Kat Holmes 2020-09-01 How inclusive methods can build elegant design solutions that work for all. Sometimes designed objects reject their users: a computer mouse that doesn't work for left-handed people, for example, or a touchscreen payment system that only works for people who read English phrases, have 20/20 vision, and use a credit card. Something as simple as color choices can render a product unusable for millions. These mismatches are the building blocks of exclusion. In Mismatch, Kat Holmes describes how design can lead to exclusion, and how design can also remedy exclusion. Inclusive design methods—designing objects with rather than for excluded users—can create elegant solutions that work well and benefit all. Holmes tells stories of pioneers of inclusive design, many of whom were drawn to work on inclusion because of their own experiences of exclusion. A gamer and designer who depends on voice recognition shows Holmes his “Wall of Exclusion,” which displays dozens of game controllers that require two hands to operate; an architect shares her firsthand knowledge of how design can fail communities, gleaned from growing up in Detroit's housing projects; an astronomer who began to lose her eyesight adapts a technique called “sonification” so she can “listen” to the stars. Designing for inclusion is not a feel-good sideline. Holmes shows how inclusion can be a source of innovation and growth, especially for digital technologies. It can be a catalyst for creativity and a boost for the bottom line as a customer base expands. And each time we remedy a mismatched interaction, we create an opportunity for more people to contribute to society in meaningful ways.

Yoga Dogs Dan Borris 2011-03-01 Learn how to sit, stay, and roll over with this fully illustrated, “delightful” guide to yoga starring man's best friend (Shutterbug magazine). Inspired by a friend's mastiff who would imitate his master's morning yoga routine, photographer Dan Borris created Yoga Dogs, a full-color collection of forty-five different dogs and puppies doing human yoga poses. Don't worry: No animals were harmed during the making of these images; their extreme flexibility is the result of clever digital trickery. The curious, humorous, and distinctly original pictures are paired with useful information about the poses, as well as some funny canine meditations. “A fresh and highly entertaining visual treat,” Yoga Dogs is perfect for any yogi of the two or four-legged variety (Shutterbug magazine).

Creative Multilingualism: A Manifesto Katrin Kohl 2020-05-20 Multilingualism is integral to the human condition. Hinging on the concept of Creative Multilingualism – the idea that language diversity and creativity are mutually enriching – this timely and thought-provoking volume shows how the concept provides a matrix for experimentation with ideas, approaches and methods. The book presents four years of joint research on Creative Multilingualism conducted across disciplines, from the humanities through to the social and natural sciences. It is structured as a manifesto, comprising ten major statements which are unpacked and explored through various case studies across ten chapters. They encompass areas including the rich relationship between language diversity and diversity of identity, thought and expression; the interaction between language diversity and biodiversity; the ‘prismatic’ unfolding of meaning in

translation; the benefits of linguistic creativity in a classroom-setting; and the ingenuity underpinning 'conlangs' ('constructed languages') such as Tolkien's Quenya and Sindarin, designed to give imagined peoples a distinctive medium capable of expressing their cultural identity. *Creative Multilingualism: A Manifesto* is a welcome contribution to the field of modern languages, highlighting the intricate relationship between multilingualism and creativity, and, crucially, reaching beyond an Anglo-centric view of the world. Intended to spark further research and discussion, this book appeals to young people interested in languages, language learning and cultural exchange. It will be a valuable resource for academics, educators, policy makers and parents of bilingual or multilingual children. Its accessible style also speaks to general readers interested in the role of language diversity in our everyday lives, and the untapped creative potential of multilingualism.

The United Nations, Peace and Security Ramesh Thakur 2006-06-08 Preventing humanitarian atrocities is becoming as important for the United Nations as dealing with inter-state war. In this book, Ramesh Thakur examines the transformation in UN operations, analysing its changing role and structure. He asks why, when and how force may be used and argues that the growing gulf between legality and legitimacy is evidence of an eroded sense of international community. He considers the tension between the US, with its capacity to use force and project power, and the UN, as the centre of the international law enforcement system. He asserts the central importance of the rule of law and of a rules-based order focused on the UN as the foundation of a civilised system of international relations. This book will be of interest to students of the UN and international organisations in politics, law and international relations departments, as well as policymakers in the UN and other NGOs.

Understanding Second Language Acquisition Lourdes Ortega 2014-02-04 Whether we grow up with one, two, or several languages during our early years of life, many of us will learn a second, foreign, or heritage language in later years. The field of Second language acquisition (SLA, for short) investigates the human capacity to learn additional languages in late childhood, adolescence, or adulthood, after the first language --in the case of monolinguals-- or languages --in the case of bilinguals-- have already been acquired. Understanding Second Language Acquisition offers a wide-encompassing survey of this burgeoning field, its accumulated findings and proposed theories, its developed research paradigms, and its pending questions for the future. The book zooms in and out of universal, individual, and social forces, in each case evaluating the research findings that have been generated across diverse naturalistic and formal contexts for second language acquisition. It assumes no background in SLA and provides helpful chapter-by-chapter summaries and suggestions for further reading. Ideal as a textbook for students of applied linguistics, foreign language education, TESOL, and education, it is also recommended for students of linguistics, developmental psycholinguistics, psychology, and cognitive science.
