(ISBP) for the examination of documents under

documentary credits, answers the most relevant

questions practitioners have concerning how UCP 500,

ICC's universally used rules on documentary credits,

are to be integrated into day-to-day practice. The

product of more than two years of work by the ICC Banking Commission, ISBP is based on the official Opinions issued by the Banking Commission in response to queries submitted by users of UCP 500. The text provides responses to the key questions relating to the examination of drafts, multimodal transport documents, insurance documents, certificates of origin and a range of other documents associates with letters of credit. This publication reflects international standard banking practice for all parties to a documentary credit. Figures show that 60%-70% of credits are rejected for discrepancies on first presentation. The new ISBP, by encouraging a uniformity of practice worldwide, is expected to cut these figures dramatically and, by doing so, to facilitate the flow of world trade.
