The Werewolf's Guide to Life Ritch Duncan 2009-09-15 Have you been attacked by a wolf-like creature in the last 30 days? Was it after the sun had set and under a full moon? If you answered, "yes" to both these questions, there's a very good chance that you were bitten by a werewolf. You now have less than a month before the full moon returns and with it your first transformation into a savage, bloodthirsty beast. Survival is an option, but first, know this: * Werewolves are real. * The majority of lycanthropes who do not have access to this book die during or shortly after their first transformations, generally due to heart failure, gunshot wounds, exposure, drowning or suicide. * Hollywood horror movies are NOT to be used as guides to living as a werewolf. Their goal is not to educate, but to entertain. As a result, they are largely ignorant of the realities of the condition. * Ignorance creates monsters; lycanthropy does not. * You are not a monster. The Werewolf's Guide to Life cuts through the fiction and guides you through your first transformation and beyond, offering indispensable advice on how to tell if you're really a werewolf, post-attack etiquette, breaking the news to your spouse, avoiding government abduction, and how to not just survive, but thrive. You cannot afford to not read this book. Your very life depends on it.

The Psychobiology of Trauma and Resilience Across the Lifespan Douglas L. Delahanty 2008-09-05 Research has suggested that childhood experiences confer risk/resilience for reactions to trauma in adulthood, and predictors and correlates of posttraumatic stress disorder (PTSD) appear to differ developmentally. Research in PTSD has typically been conducted by either child or adult

researchers with relatively little overlap or communication between the two camps. Developmental models of PTSD are necessary to fully understand the complex constellation of responses to trauma across the lifespan. Such models can inform study designs and lead to novel, developmentally-appropriate interventions. To this end, this book is organized in such a way as to present and integrate research into child, adult, and older adult trauma samples in an attempt to culminate in a testable model of PTSD risk and resilience across the lifespan. Each author incorporates a developmental slant to their individual chapter, and the chapters are organized to highlight potential differences in our understanding of risk and resiliency between children and adults. Initial chapters concerning pre- and peri-traumatic risk factors for PTSD lead into chapters reviewing specific risk and resilience factors in adults and children. Additional chapters focus on the impact of childhood trauma on adult functioning and the biology of PTSD in children, adults, and older adults. As PTSD rarely occurs in a "pure" form, specific chapters focus on the impact of comorbid disorders in our understanding of PTSD, and the final chapters consider both psychosocial and pharmacological treatments for PTSD in children and adults.

The Penguin Anthology of Classical Arabic Literature Robert Irwin 2006-05-25 Spanning the fifth century to the sixteenth, and ranging from Afghanistan to Spain, this unique collection provides a profound insight into the sheer vitality and depth of Classical Arabic literature. From the earliest surviving fragments of *The Thousand and One Nights* to the elegant beauty and profound power of the Qur'an - believed by the Islamic faith to contain the actual words of Allah - it includes translated extracts from all the major works of the period, alongside many less well-known but equally fascinating pieces. Exploring such traditional themes as lovesick yearning and fated doom, and considering subjects as diverse as the etiquette of falling in love with slave-girls and the terrors of the sea, this compelling anthology of poetry and prose brilliantly illuminates a body of writing that has been unjustly neglected by the west for centuries.

The University and Urban Revival Judith Rodin 2015-12-04 In the last quarter of the twentieth century, urban colleges and universities found themselves enveloped by the poverty, crime, and physical decline that afflicted American cities. Some institutions turned inward, trying to insulate themselves rather than address the problems in their own backyards. Others attempted to develop better community relations, though changes were hard to sustain. Spurred by an unprecedented crime wave in 1996, University of Pennsylvania President Judith Rodin knew that the time for urgent action had arrived, and she set a new course of proactive community engagement for her university. Her dedication to the revitalization of West Philadelphia was guided by her role not only as president but also as a woman and a mother with a deep affection for her hometown. The goal was to build capacity back into a severely distressed inner-city neighborhood—educational capacity, retail capacity, quality-of-life capacity, and especially economic capacity—guided by the belief that "town and gown" could unite as one richly diverse community. Cities rely on their academic institutions as stable places of employment, cultural centers, civic partners, and concentrated populations of consumers for local business and services. And a competitive university demands a vibrant neighborhood to meet the needs of its faculty, staff, and students. In keeping with their mission, urban universities are uniquely positioned to lead their communities in revitalization efforts, yet this effort requires resolute persistence. During Rodin's administration (1994-2004), the *Chronicle of Higher Education* referred to Penn's progress as a "national model of constructive town-gown interaction and partnership." This book narrates the challenges, frustrations, and successes of Penn's campaign, and its prospects for long-term change.

Killers of the King Charles Spencer 2014-09-11 January, 1649. After seven years of fighting in the bloodiest war in Britain's history, Parliament had overpowered King Charles I and now faced a problem: what to do with a defeated king, a king who refused to surrender? Parliamentarians resolved to do the unthinkable, to disregard the Divine Right of Kings and hold Charles I to account for the appalling suffering and slaughter endured by his people. A tribunal of 135 men was hastily gathered in London, and although Charles refused to acknowledge the power of his subjects to try him, the death sentence was unanimously passed. On an icy winter's day on a scaffold outside Whitehall, in an event unique in English history, the King of England was executed. When the dead king's son, Charles II, was restored to the throne, he set about enacting a deadly wave of retribution against all those – the lawyers, the judges, the officers on the scaffold – responsible for his father's death. Some of the 'regicides' – the killers of the king – pleaded for mercy, while others stoically awaited their sentence. Many went into hiding in England, or fled to Europe or America. Those who were caught and condemned suffered agonising and degrading ends, while others saw out their days in hellish captivity. Bestselling historian Charles Spencer explores this violent clash of ideals through the individuals whose fates were determined by that one, momentous decision. A powerful tale of revenge from the dark heart of royal history and a fascinating insight into the dangers of political and religious allegiance in Stuart England, these are the shocking stories of the men who dared to kill a king.
