Killers of the King Charles Spencer 2014-09-11 January, 1649. After seven years of fighting in the bloodiest war in Britain's history, Parliament had overpowered King Charles I and now faced a problem: what to do with a defeated king, a king who refused to surrender? Parliamentarians resolved to do the unthinkable, to disregard the Divine Right of Kings and hold Charles I to account for the appalling suffering and slaughter endured by his people. A tribunal of 135 men was hastily gathered in London, and although Charles refused to acknowledge the power of his subjects to try him, the death sentence was unanimously passed. On an icy winter's day on a scaffold outside Whitehall, in an event unique in English history, the King of England was executed. When the dead king's son, Charles II, was restored to the throne, he set about enacting a deadly wave of retribution against all those – the lawyers, the judges, the officers on the scaffold – responsible for his father's death. Some of the 'regicides' – the killers of the king – pleaded for mercy, while others stoically awaited their sentence. Many went into hiding in England, or fled to Europe or America.

Those who were caught and condemned suffered agonising and degrading ends, while others saw out their days in hellish captivity. Bestselling historian Charles Spencer explores this violent clash of ideals through the individuals whose fates were determined by that one, momentous decision. A powerful tale of revenge from the dark heart of royal history and a fascinating insight into the dangers of political and religious allegiance in Stuart England, these are the shocking stories of the men who dared to kill a king.

A Vision of Change for America United States. President (1993-2001 : Clinton) 1993 This report was prepared to accompany President Clinton's first address to a Joint Session of

Congress. It describes in detail the comprehensive economic plan being proposed by the new administration for the nation. The plan has three key elements: economic stimulus to create jobs now while laying the foundation for long-term economic growth; long term public investments to increase the productivity of people and businesses; and a balanced deficit-reduction plan to prevent the drain of private investments that generate jobs and increase incomes. The text is organized into four sections: (1) "A New Direction" (a brief 3-page preamble); (2) "A Legacy of Failure" (a 16-page statement of the problem, under subheadings such as "Skyrocketing Health Care Costs"); (3) "What We Must Now Do" (a 92-page statement of the solution, under subheadings such as "Investing in the Future: Reducing the Deficit To Increase Private Investment" and "Restoring Fairness"); and (4) "The Task Remaining" (a brief 6-page wrap-up). A closing Appendix contains 25 pages of statistical tables outlining various discretionary program savings, proposed changes to mandatory programs, stimulus proposals, investment proposals, and revenue and receipts proposals. Most tables provide figures for each year for the 6-year period 1993-1998. The field of education is touched upon in the report at six locations: (1) "Relative Earnings by Education for 25-34 Year Olds" (Chart 2-9, p. 18); (2) Chapter 1 Compensatory Education (p.31); (3) Pell Grants (p. 32); (4) "Lifelong Learning," covering full funding of Head Start and related child care funding and Medicaid, National Service, Dislocated Workers Program, Job Corps Expansion, Summer Youth Employment and Training Program, Youth Apprenticeship, and various Department of Education reforms and initiatives (p. 57-59); (5) Impact Aid "b"

Projects (p. 87); and (6) Reform of Student Loan Programs (p. 92). (WTB)

Social Work in Europe Charlotte Williams 2013-09-13 It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.
