Film Is Un-dead Dennis Eighteen 2015-12-02 Did film die? Yes, it did. However, you will find that film is still around. Film, as well as analog cameras, are best described as un-dead. If you look closely, you will find that in the shadows there is an army of enthusiastic film shooters. Professionals and hobbyists alike keep the art and craft of analog photography from dying completely-and they're doing a great job. First and foremost they are creating great photos. Their pictures are seen on billboards, ads, galleries, books, and all over the Internet. Once you start looking, you'll realize analog shooters are everywhere. Like all good vampires, they walk the earth with grace, are pretty darn sexy and don't really care about hype and current trends, for their magic has been around for ages and will never disappear. This book was written as a labour of love of one passionate film photographer to all those digital shooters who are thinking about getting (back) into analog picture taking. It offers tips, pieces of valuable advice and is simply a fun read for any and all who love photography in its purest form.

Manufacturing Facilities Design and Material Handling Fred E. Meyers 2005 This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Transient Light Ian Cameron 2014-03-17 Although aimed at keen amateur photographers who wish to break into the professional market, the superb images and technical expertise offer something for all levels of skill and will also inspire those just becoming interested in photography and more established photographers who need to re-focus their photographic motivation. The book's primary goal is to draw the attention of readers to the absolute importance of light and how to make the best use of it, with an emphasis on being in the right place at the right time, anticipating fine light and ensuring that for the short duration that those qualities are present, they are successfully recorded to film or pixel. However, composition and technical expertise are also vitally important and Ian outlines the best field techniques for choosing the correct exposure, discusses depth of field, hyper-focal focusing, exposure bracketing and the use of appropriate filters.

Conceptualizing the Regulatory Thicket Shen Wei 2020-10-19 This book examines the regulatory framework, regulatory objectives, regulatory logics, regulatory instruments, regulatory failures, and regulatory responses in China's financial market after the global financial crisis. The book provides an in-depth analysis of China's contemporary financial regulatory system, focusing on risks, regulation, and policies in practice. By drawing on public and private interest theories relating to financial regulation, the book contends that the controlled development of the banking sector, and the financial sector generally, has transformed China's banks into more market-oriented institutions and increased public sector growth. However, China's financial market and financial regulation have some inherent weaknesses and deficiencies. This book also offers insights into how this can be improved or adapted to minimize systemic risks in China's financial sector. This book tries to prove that financial regulation is not just a vehicle for maintaining efficient financial markets but a primary tool through which the Chinese government achieves its political and economic objectives. More fundamentally, according to the law and finance theory, strong market and vibrant judicial systems are needed to further modernize China's financial markets and market economy. The book will be a useful reference for anyone interested in learning from the Chinese experience.

All about the D Lex Martin 2019-03-06 Temptation has never come in a hotter package. You know how people say you can never believe what you read on the interwebs? That a hot guy online is probably a creeper with a beer gut and a shoe fetish, not the sexy beast he pretends to be? So I had no clue that the anonymous blogger who contacted my law firm about his naughty website would be droolworthy in real life. Not that I'm interested in him in that way. Attorneys can't go around sleeping with their clients. Not even if he is the most beautiful man I've ever met and so ridiculously smart he makes my nerdy-girl heart sigh. Besides, he has too much on the line to risk taking a chance on the insane chemistry building between us. We both do. I've always followed the rules. Too bad he makes me want to break each and every one of them.

Infra Richard Mosse 2012-01-01 Infra, Richard Mosse's first book, offers a radical rethinking of how to depict a conflict as complex and intractable as that of the ongoing war in the Democratic Republic of Congo. Mosse photographs both the rich topography, inscribed with the traces of conflicting interests, as well as rebel groups of constantly shifting allegiances at war with the Congolese national army (itself a patchwork of recently integrated warlords and their militias). For centuries, the Congo has repeatedly compelled and defied the Western imagination. Mosse brings to this subject the use of a discontinued aerial surveillance film, a type of color infrared film called Kodak Aerochrome. The film, originally developed for military reconnaissance, registers an invisible spectrum of infrared light, rendering the green landscape in vivid hues of lavender, crimson, and hot pink. The results offer a fevered inflation of the traditional reportage document, underlining the growing tension between art, fiction, and photojournalism. Mosse's work highlights the ineffable nature of current events in today's Congo. Infra initiates a dialogue with photography that begins as an intoxicating meditation on a broken genre, but ends as a haunting elegy for a vividly beautiful land touched by unspeakable tragedy.
