Rupa Kahani showcases this popular genre of literature, featuring select works of masters of the form, across centuries and locations. These stories were written originally in Punjabi and have been transcreated into English by the author himself, with no loss to the spirit and rhythms of the originals. They stand out for their thematic variety as also as registrations of contemporary problems ---notably the spurt of militancy in Punjab.Short, crisp, with the veritable twist in the end, the stories reflect the author's maturity and sensitivity as a seasoned practitioner of the genre.

Most of us spend our lives avoiding that question, but this luminous book--a major best-seller in France--answers it with a directness and eloquence that are nothing less than transforming. As a psychologist in a hospital for the terminally ill in Paris, Marie de Hennezel has spent seven years tending to people who are relinquishing their hold on life. She tells the stories of her patients and their families. de Hennezel teaches us how to turn death--our loved ones' or our own--from something lonely and agonizing into a sacred passage. In imparting these lessons, Intimate Death becomes a guide to living more fully, more intensely, than we had thought possible.

Chronic Pain Management in General and Hospital Practice Koki Shimoji 2020-07-27 This book covers a range of topics, from the cause and identity of pain, to pain relief management. Starting from the mechanism of pain, it continues to pain management techniques such as nerve blocks, drugs (pain killers), noninvasive manipulations psychological techniques and electric management, before describing the management of various painful conditions such as headaches, back pain, extremities pain, post-herpetic pain or complex regional pain syndrome. It also provides the format of case reports which can be used to explain management options. A novel feature of the book is that it provides additional insights into how clinicians involve patients in treating their own pain through guided self-assessment and self-management. Recent studies have revealed that pain is not only a biological alarm that warns of disease, but can also be the disease itself, or the catalyst of a vicious circle of pain and disease. Providing rapid pain relief is often effective in sparking the rapid recovery from various diseases. This book offers the perfect guide for all clinicians, not only those working at pain clinics but all those who have to treat patients who are in pain.

Savarkar Vikram Sampath 2019-08-16 As the intellectual fountainhead of the ideology of Hindutva, which is in political ascendancy in India today, Vinayak Damodar Savarkar is undoubtedly one of the most contentious political thinkers and leaders of the twentieth century. Accounts of his eventful and stormy life have oscillated from eulogizing hagiographies to disparaging demonization. The truth, as always, lies somewhere in between and has unfortunately never been brought to light. Savarkar and his ideology stood as one of the strongest and most virulent opponents of Gandhi, his pacifist philosophy and the Indian National Congress. An alleged atheist and a staunch rationalist who opposed orthodox Hindu beliefs, encouraged inter-caste marriage and dining, and dismissed cow worship as mere superstition, Savarkar was, arguably, the most vocal political voice for the Hindu community through the entire course of India's freedom struggle. From the heady days of revolution and generating international support for the cause of India's freedom as a law student in London, Savarkar found himself arrested, unfairly tried for sedition, transported and incarcerated at the Cellular Jail, in the Andamans, for over a decade, where he underwent unimaginable torture. From being an optimistic advocate of Hindu-Muslim unity in his treatise on the 1857 War of Independence, what was it that transformed him in the Cellular Jail to a proponent of 'Hindutva', which viewed Muslims with suspicion? Drawing from a vast range of original archival documents across India and abroad, this biography in two parts-the first focusing on the years leading up to his incarceration and eventual release from the Kalapani-puts Savarkar, his life and philosophy in a new perspective and looks at the man with all his achievements and failings.

Golda Elinor Burkett 2009-10-13 Golda Meir was the first female head of state in the Western world and one of the most

influential women in modern history. A blend of Emma Goldman and Martin Luther King Jr. in the guise of a cookie-serving grandmother, her uncompromising devotion to shaping and defending a Jewish homeland against dogged enemies and skittish allies stunned political contemporaries and transformed Middle Eastern politics for decades to follow. She outmaneuvered Richard Nixon and Henry Kissinger at their own game of Realpolitik, and led Israel through a bloody war even as she eloquently pleaded for peace, carrying her nation through its most perilous hours while she herself battled cancer. In this masterful biography, critically acclaimed author Elinor Burkett paints a vivid portrait of a legendary woman defined by contradictions: an iron resolve coupled with magnetic charm, a kindly demeanor that disguised a stunning hard-heartedness, and a complete dedication to her country that often overwhelmed her personal relationships.

The Ground Between Veena Das 2014-04-21 The guiding inspiration of this book is the attraction and distance that mark the relation between anthropology and philosophy. This theme is explored through encounters between individual anthropologists and particular regions of philosophy. Several of the most basic concepts of the discipline—including notions of ethics, politics, temporality, self and other, and the nature of human life—are products of a dialogue, both implicit and explicit, between anthropology and philosophy. These philosophical undercurrents in anthropology also speak to the question of what it is to experience our being in a world marked by radical difference and otherness. In *The Ground Between*, twelve leading anthropologists offer intimate reflections on the influence of particular philosophers on their way of seeing the world, and on what ethnography has taught them about philosophy. Ethnographies of the mundane and the everyday raise fundamental issues that the contributors grapple with in both their lives and their thinking. With directness and honesty, they relate particular philosophers to matters such as how to respond to the suffering of the other, how concepts arise in the give and take of everyday life, and how to be attuned to the world through the senses. Their essays challenge the idea that philosophy is solely the province of professional philosophers, and suggest that certain modalities of being in the world might be construed as ways of doing philosophy.
