**Paris to the Moon** Adam Gopnik 2001-12-18 Paris. The name alone conjures images of chestnut-lined boulevards, sidewalk cafés, breathtaking façades around every corner--in short, an exquisite romanticism that has captured the American imagination for as long as there have been Americans. In 1995, Adam Gopnik, his wife, and their infant son left the familiar comforts and hassles of New York City for the urbane glamour of the City of Light. Gopnik is a longtime New Yorker writer, and the magazine has sent its writers to Paris for decades--but his was above all a personal pilgrimage to the place that had for so long been the undisputed capital of everything cultural and beautiful. It was also the opportunity to raise a child who would know what it was to romp in the Luxembourg Gardens, to enjoy a croque monsieur in a Left Bank café--a child (and perhaps a father, too) who would have a grasp of that Parisian sense of style we Americans find so elusive. So, in the grand tradition of the American abroad, Gopnik walked the paths of the Tuileries, enjoyed philosophical discussions at his local bistro, wrote as violet twilight fell on the arrondissements. Of course, as readers of Gopnik's beloved and award-winning "Paris Journals" in The New Yorker know, there was also the matter of raising a child and carrying on with day-to-day, not-so-fabled life. Evenings with French intellectuals preceded middle-of-the-night baby feedings; afternoons were filled with trips to the Musée d'Orsay and pinball games; weekday leftovers were eaten while three-star chefs debated a "culinary crisis." As Gopnik describes in this funny and tender book, the dual processes of navigating a foreign city and becoming a parent are not completely dissimilar journeys--both hold new routines, new languages, a new set of rules by which everyday life is lived. With singular wit and insight, Gopnik weaves the magical with the mundane in a wholly delightful, often hilarious look at what it was to be an American family man in Paris at the end of the twentieth century. "We went to Paris for a sentimental reeducation-I did anyway-even though the sentiments we were instructed in were not the ones we were expecting to learn, which I believe is why they call it an education."

**Maestros and Their Music** John Mauceri 2017-11-07 An exuberant, uniquely accessible, beautifully illustrated look inside the

enigmatic art and craft of conducting, from a celebrated conductor whose international career has spanned half a century. John Mauceri brings a lifetime of experience to bear in an unprecedented, hugely informative, consistently entertaining exploration of his profession, rich with anecdotes from decades of working alongside the greatest names of the music world. With candor and humor, Mauceri makes clear that conducting is itself a composition: of legacy and tradition, techniques handed down from master to apprentice--and more than a trace of ineffable magic. He reveals how conductors approach a piece of music (a calculated combination of personal interpretation, imagination, and insight into the composer's intent); what it takes to communicate solely through gesture, with sometimes hundreds of performers at once; and the occasionally glamorous, often challenging life of the itinerant maestro. Mauceri, who worked closely with Leonard Bernstein for eighteen years, studied with Leopold Stokowski, and was on the faculty of Yale University for fifteen years, is the perfect guide to the allure and theater, passion and drudgery, rivalries and relationships of the conducting life.

Music and the Child Natalie Sarrazin 2016-06-14 Children are inherently musical. They respond to music and learn through music. Music expresses children's identity and heritage, teaches them to belong to a culture, and develops their cognitive well-being and inner self worth. As professional instructors, childcare workers, or students looking forward to a career working with children, we should continuously search for ways to tap into children's natural reservoir of enthusiasm for singing, moving and experimenting with instruments. But how, you might ask? What music is appropriate for the children I'm working with? How can music help inspire a well-rounded child? How do I reach and teach children musically? Most importantly perhaps, how can I incorporate music into a curriculum that marginalizes the arts? This book explores a holistic, artistic, and integrated approach to understanding the developmental connections between music and children. This book guides professionals to work through music, harnessing the processes that underlie music learning, and outlining developmentally appropriate methods to understand the role of music in children's lives through play, games, creativity, and movement. Additionally, the book explores ways of applying music-making to benefit the whole child, i.e., socially, emotionally, physically, cognitively, and linguistically.
