**Course in Nepali** David Matthews 2013-01-11 Nepali has also been adopted by peoples of the Himalayan region who belong to different linguistic groups, and is now understood throughout the whole of Nepal, the Darjeeling region of West Bengal, Sikkim, Bhutan and parts of Tibet, where it has functioned as a language of trade and commerce for well over two centuries. The aim of this course, which covers the whole grammar and all the constructions of modern Nepali, is to present a full description of both the spoken and written forms of modern standard Nepali, and to enable the student to understand, speak and read most types of Nepali he or she is likely to encounter. The earlier lessons concentrate mainly on the spoken style, and the conversation passages whilst the later lessons concern religious, political and literary topics. Nepal is a land which already provides great enjoyment to the increasing number of visitors from the west. A knowledge of the language leads to a deeper understanding of the culture of its people, and the object of A Course in Nepali is to provide the means of learning it without much difficulty. Earlier editions of this course have been the standard book for students at the School of Oriental and African Studies, and it is without question the established market leader.

**Rituals of Ethnicity Sara Shneiderman 2015-02-02** Rituals of Ethnicity is a transnational study of the relationships between mobility, ethnicity, and ritual action. Through an ethnography of the Thangmi, a marginalized community who migrate between Himalayan border zones of Nepal, India, and the Tibetan Autonomous Region of China, Shneiderman offers a new explanation for the persistence of enduring ethnic identities today despite the increasing realities of mobile, hybrid lives. She shows that ethnicization may be understood as a process of ritualization, which brings people together around the shared sacred object of identity. The first comprehensive ethnography of the Thangmi, Rituals of Ethnicity is framed by the Maoist-state civil conflict in Nepal and the movement for a separate state of Gorkhaland in India. The histories of individual nation-states in this geopolitical hotspot—as well as the cross-border flows of people and ideas between them—reveal the far-reaching and mutually entangled discourses of democracy, communism, development, and indigeneity that have transformed the region over the past half century. Attentive to the competing claims of diverse members of the Thangmi community, from shamans to political activists, Shneiderman shows how Thangmi ethnic identity is produced collaboratively by individuals through ritual actions embedded in local, national, and transnational contexts. She builds upon the specificity of Thangmi experiences to tell a larger story about the complexities of ethnic consciousness: the challenges of belonging and citizenship under conditions of mobility, the desire to both lay claim to and remain apart from the civil society of multiple states, and the paradox of self-identification as a group with cultural traditions in need of both preservation and development. Through deep engagement with a diverse, cross-border community that yearns to be understood as a distinctive, coherent whole, Rituals of Ethnicity presents an argument for the continued value of locally situated ethnography in a multisited world. **The Hindi Public Sphere 1920–1940 Francesca Orsini 2009-04-29** This book analyses how a language became the instrument with which the contours of a new nation were traced. Mapping the success of formalized Hindi in creating a regional public sphere in north India in the early twentieth century, the book explores the way many educated Indians, influenced by the British ideas and institutions, expressed interest in new concepts such as progress, unity, and a common cultural heritage. From the development of new codes and institutions to a language that helped to create space for argument and debate, the book gives an overview of the Hindi public sphere. Furthermore, it throws light on the work of Vasudha Dalmia about the nascent Hindi public sphere and brings to light how early-twentieth-century discourses on language, literature, gender, history, and politics form the core of the Hindi culture that exists today.

**The Nepal Nexus Sudheer Sharma 2019-10-03** This fast-paced and comprehensive account of Nepal today traces the recent past and the present of Nepali politics and geopolitics from the vantage point of an insider who had a ringside view of the developments of the last two decades. This was a turbulent, eventful era which had a transformative impact on the country. In this short span, Nepal experienced the Maoist revolt, the palace massacre, the state of emergency, the royal coup, the people's movement, the republic, the Madhes uprising, the Constituent Assembly, federalism and the new Constitution. Looking back at these developments, Sudheer Sharma argues that poverty, unemployment and oppression drove the Maoist revolt, and despite its ultimate failure, it played a decisive role in the socio-political transformation of Nepal. Furthermore, the relationship between the Maoists, the monarchy (Durbar) and the Indian establishment (Delhi) is absolutely critical to the understanding of the trajectory of the changes. The Nepal Nexus examines the impact of each of these three strands and tracks the complex interplay between them.

**The Barefoot Surgeon Ali Gripper 2018-06-27** 'A true insight into my remarkable friend Dr Sanduk Ruit.' - Gabi Hollows 'He reminds me of Don Bradman. They both have a God-given talent and skill...' - Ray Martin 'If I've done one thing in life I'm proud of, it's launching Ruit into the world.' - Fred Hollows 'One of the greatest people I've ever met.' - Joel Edgerton 'I've known Dr Sanduk Ruit for over thirty years. He is one of our greatest living eye surgeons and humanitarians... Watching him give the gift of sight is like watching someone give a second life.' - Richard Gere Inspiring and uplifting, this is the extraordinary story of Dr Sanduk Ruit who, like his mentor Fred Hollows, took on the world's medical establishment to give the life-changing gift of sight to hundreds and thousands of the world's poorest and most isolated people. It is the story of a boy from the lowest tiers of a rigid caste system who grew up in a tiny, remote Himalayan village with no school to become one of the most respected ophthalmologists in the world and a medical giant of Asia. Compelling and compassionate, it is also the story of a young doctor who became Fred Hollows' medical soul mate and who chose to defy the world's medical establishment and the lure of riches to make the world a better place.

**A Small Place Jamaica Kincaid 2000-04-28** A brilliant look at colonialism and its effects in Antigua--by the author of Annie John "If you go to Antigua as a tourist, this is what you will see. If you come by aeroplane, you will land at the V. C. Bird International Airport. Vere Cornwall (V. C.) Bird is the Prime Minister of Antigua. You may be the sort of tourist who would wonder why a Prime Minister would want an airport named after him--why not a school, why not a hospital, why not some great public monument. You are a tourist and you have not yet seen . . ." So begins Jamaica Kincaid's expansive essay, which shows us what we have not yet seen of the ten-by-twelve-mile island in the British West Indies where she grew up. Lyrical, sardonic, and forthright by turns, in a Swiftian mode, A Small Place cannot help but amplify our vision of one small place and all that it signifies.

**An Episode of War Stephen Crane 2009-04-28** Though best known for The Red Badge of Courage, his classic novel of men at war, in his tragically brief life and career Stephen Crane produced a wealth of stories—among them "The Monster," "The Upturned Face," "The Open Boat," and the title story—that stand among the most acclaimed and enduring in the history of American fiction. This superb volume collects stories of unique power and variety in which impressionistic, hallucinatory, and realistic situations alike are brilliantly conveyed through the cold, sometimes brutal irony of Crane's narrative voice.

**Socio-economic and Eco-biological Dimensions in Resource use and Conservation Niranjana Roy 2020-01-27** This book presents the outcomes of the 2017 national workshop and international conference organized by CEENR of ISEC, Bengaluru and Assam University Silchar. Addressing the threats to biodiversity and sustainable development resulting from the impacts of human induced pressures on ecosystems and global-warming-driven climate change is a major challenge. It requires increased knowledge and an enhanced information base in order to devise local policies to improve the adaptive capacity of vulnerable socio-ecological systems in developing countries. In this context, the book presents research that has the potential to benefit the environment and empower communities. It appeals to researchers investigating diverse aspects of socio-ecological-biological systems to create strategies for resource use, conservation and management to ensure sustainability.

**Gender and Forests Carol J. Pierce Colfer 2016-04-14** This enlightening book brings together the work of gender and forestry specialists from various backgrounds and fields of research and action to analyse global gender conditions as related to forests. Using a variety of methods and approaches, they build on a spectrum of theoretical perspectives to bring depth and breadth to the relevant issues and address timely and under-studied themes. Focusing particularly on tropical forests, the book presents both local case studies and global comparative studies from Africa, Asia, and Latin America, as well as the US and Europe. The studies range from personal histories of elderly American women's attitudes toward conservation, to a combined qualitative / quantitative international comparative study on REDD+, to a longitudinal examination of oil palm and gender roles over time in Kalimantan. Issues are examined across scales, from the household to the nation state and the global arena; and reach back to the past to inform present and future considerations. The collection will be of relevance to academics, researchers, policy makers and advocates with different levels of familiarity with gender issues in the field of forestry.

**Unchopping a Tree W. S. Merwin 2014** There's no mystery to chopping down a tree. But how do you put back together a tree that's been felled? Mystical instructions are required, and that's what W. S. Merwin provides in his prose piece "Unchopping a Tree," appearing for the first time in a self-contained volume. Written with a poet's grace, an ecologist's insights, and a Buddhist's reverence for life, this elegant work describes the difficult, sacred job of reconstructing a tree. Step by step, page by page, with Merwin's humble authority, secrets are revealed, and the destroyed tree rises from the forest floor. Unchopping a Tree opens with simplicity and grace: "Start with the leaves, the small twigs, and the nest that have been shaken, ripped, or broken off by the fall; these must be gathered and attached once again to their respective places." W. S. Merwin, like many conservationists, is quick to say: "When we destroy the so-called natural world around us we're simply destroying ourselves. And I think it's irreversible." Thus the tree takes on a scale that begs the reader's compassion, and one tree is a parable for the restoration of all nature.

**"If Each Comes Halfway" Kathryn S. March 2018-08-06** For twenty-five years, Kathryn S. March has collected the life stories of the women of a Buddhist Tamang farming community in Nepal. In "If Each Comes Halfway", she shows the process by which she and Tamang women reached across their cultural differences to find common ground. March allows the women's own words to paint a vivid portrait of their highland home. Because Tamang women frequently told their stories by singing poetic songs in the middle of their conversations with March, each book includes a CD of traditional songs not recorded elsewhere. Striking photographs of the Tamang people accent the book's written accounts and the CD's musical examples. In conversation and song, the Tamang open their sem—their "hearts-and-minds"—as they address a broad range of topics: life in extended households, women's property issues, wage employment and out-migration, sexism, and troubled relations with other ethnic groups. Young women reflect on uncertainties. Middle-aged women discuss obligations. Older women speak poignantly, and bluntly, about weariness and waiting to die. The goal of March's approach to ethnography is to place Tamang women in control of how their stories are told and allow an unusually intimate glimpse into their world.

Ethnographic Discourse of the Other Eswarappa Kasi 2009-03-26 This book primarily tries to bring out the analogy between the conceptual and methodological discourses on the theme of the other. The term 'Other' here refers to the oppressed sections of the society. It may be dalits, women, indigenous or ethnic communities. Since we are living in a multicultural and multilingual society, we should share our views with others on a platform where issues of the marginalized people are addressed by different scholars following different methods and techniques. Though there are various policies and plans for the welfare of the downtrodden, hardly any change can be seen at the micro-level structure of the society. There are studies which highlighted the problems and ethos of the downtrodden sections, but a majority of those studies neglected the marginalized groups. Hence, we felt the need to highlight the issues and concerns of these groups in a wider context and started thinking on the theme 'Ethnographic Discourse of the Other: Conceptual and Methodological Issues'. This volume attempts to discuss and theorize the pragmatic concepts and issues related to the marginalized groups in contemporary societies in South Asia. This book is interdisciplinary in nature and will be useful to scholars and students of Anthropology, Sociology, Linguistics, Social Work, Culture Studies, Gender Studies and Philosophy. It is widely applicable to all sections of the oppressed socially, economically, culturally, academically, politically and other wise.
