Myth and Ritual in the Plays of Samuel Beckett Katherine H. Burkman 1987 All of the essays in this collection reflect a sense that Beckett's power as a playwright derives largely from a mythic vision that informs his drama. Their approaches to the definition and use of myth and ritual in his plays vary considerably, however, ranging from the Jungian to the Marxian to the Lacanian, and drawing on the theories of Campbell, Freud, Eliade, Frye, Turner, Girard, Baudrillard, and others.

Three Midwestern Playwrights Marcia Noe 2022-08-02 In the early 1900s, three small-town midwestern playwrights helped shepherd American theatre into the modern era. Together, they created the renowned Provincetown Players collective, which not only launched many careers but also had the power to affect US social, cultural, and political beliefs. The philosophical and political orientations of Floyd Dell, George Cram Cook, and Susan Glaspell generated a theatre practice marked by experimentalism, collaboration, leftist cultural critique, rebellion, liberation, and community engagement. In Three Midwestern Playwrights, Marcia Noe situates the origin of the Provincetown aesthetic in Davenport, Iowa, a Mississippi River town. All three playwrights recognized that radical politics sometimes begat radical chic, and several of their plays satirize the faddish elements of the progressive political, social, and cultural movements they were active in. Three Midwestern Playwrights brings the players to life and deftly illustrates how Dell, Cook, and Glaspell joined early 20th-century midwestern radicalism with East Coast avant-garde drama, resulting in a fresh and energetic contribution to American theatre. Self and Space in the Theater of Susan Glaspell Noelia Hernando-Real 2011 "This critical study focuses on one of Glaspell's central themes, the interplay between place and identity. This study examines the means Glaspell employs to engage her characters in proxemical and verbal dialectics with the forces of place that turn them into victims of location. Of particular interest are her characters' attempts to escape the influence of territoriality and shape identities of their own.

The Theater of Transformation Kerstin Schmidt 2016-08-01 The Theater of Transformation: Postmodernism in American Drama offers a fresh and innovative reading of the contemporary experimental American theater scene and navigates through the contested and contentious relationship between postmodernism and contemporary drama. This book addresses gender and class as well as racial issues in the context of a theoretical discussion of dramatic texts, textuality, and performance. Transformation is contemporary

drama's answer to the questions of postmodernism and a major technique in the development of a postmodern language for the stage. In order to demonstrate the multi-faceted nature of the postmodern theater of transformation, this study draws on a wide range of plays: from early experimental plays of the 1960s by Jean-Claude van Itallie through feminist plays by Megan Terry and Rochelle Owens to more recent drama by the African-American playwright Suzan-Lori Parks. *The Theater of Transformation: Postmodernism in American Drama* is written for anyone interested in contemporary American drama and theater as well as in postmodernism and contemporary literary theory. It appeals even more broadly to a readership intrigued by the ubiquitous aspects of popular culture, by feminism and ethnicity, and by issues pertaining to the so-called 'society of spectacle' and the study of contemporary media.

Postmodern Theater and the Void of Conceptions William S. Haney II 2009-03-26 Different symbolic traditions have different ways of describing the shift of awareness toward sacred events. While not conforming to familiar states of phenomenality, this shift of awareness corresponds to Turner's liminal phase, Artaud's metaphysical embodiment, Grotowski's "translumination," Brook's "holy theater," and Barba's "transcendent" theater—all of which are linked to the Advaitan taste of a void of conceptions. This book argues that, by allowing to come what Derrida calls the unsayable, the theater of Tom Stoppard, David Henry Hwang, Caryl Churchill, Sam Shepard, Derek Walcott and Girish Karnad induces characters and spectators to deconstruct habitual patterns of perception, attenuate the content of consciousness, and taste the void of conceptions. As the nine plays discussed in this book suggest, the internal observer lies behind all cultural constructs as a silent beyond-ness, and immanently within knowledge as its generative condition of unknowingness. The unsayable (and the language used to convey it) that Derrida finds in literature has clear affinities with the Brahman-Atman of Advaita Vedanta. Derridean deconstruction contains as a subtext the structure of consciousness that it both veils with the undecidable trappings of the mind and allows to come as an unsayable secret through a play of difference. Although Derrida views theater and the text as mutually deconstructing and claims that presence or unity "has always already begun to represent itself," the six playwrights discussed here show that cultural performance indeed points through its universally ambiguous and symbolic types toward a trans-verbal, trans-cultural wholeness.

Watsuji Tetsuro's Rinrigaku Watsuji Tetsuro 1996-01-01 Watsuji Tetsuro's *Rinrigaku* (literally, the principles that allow us to live in friendly community) has been regarded as the definitive study of Japanese ethics for half a century. In Japan, ethics is the study of human being or ningen. As an ethical being, one negates individuality by abandoning one's independence from others. This selflessness is the true meaning of goodness.

Orientations Kandice Chuh 2001-08-13 Asian and Asian American studies emerged, respectively, from Cold War and social protest ideologies. Yet, in the context of contemporary globalization, can these ideological distinctions remain in place? Suggesting new directions for studies of the Asian diaspora, the prominent scholars who contribute to this volume raise important questions about the genealogies of these fields, their mutual imbrication, and their relationship to other disciplinary formations, including American and ethnic studies. With its recurrent themes of transnationalism, globalization, and postcoloniality, *Orientations* considers various embodiments of the Asian diaspora, including a rumination on minority discourses and performance studies, and a historical look at the journal *Amerasia*. Exploring the translation of knowledge from one community to another, other contributions consider such issues as Filipino immigrants' strategies for enacting Asian American subjectivity and the link between area studies and the journal *Subaltern Studies*. In a section that focuses on how disciplines—or borders—form, one essay discusses "orientalist melancholy," while another focuses on the construction of the Asian American persona during the Cold War. Other topics in the volume include the role Asian immigrants play in U.S. racial politics, Japanese American identity in postwar Japan, Asian American theater, and the effects of Asian and Asian American studies on constructions of American identity. On Susan Glaspell's Trifles and A Jury of Her Peers Martha C. Carpentier 2015-11-25 On a wharf in Provincetown, Massachusetts, where Greenwich Village bohemians gathered in the summer of 1916, Susan Glaspell was inspired by a sensational murder trial to write *Trifles*, a play about two women who hide a Midwestern farm wife's motive for murdering her abusive husband. Following successful productions of the play, Glaspell became the "mother of American drama." Her short story version of *Trifles*, "A Jury of Her Peers," reached an unprecedented one million readers in 1917. The play and the story have since been taught in classrooms across America and *Trifles* is regularly revived on stages around the world. This collection of fresh essays celebrates the centennial of *Trifles* and "A Jury of Her Peers," with departures from established Glaspell scholarship. Interviews with theater people are included along with two original works inspired by Glaspell's iconic writings.

Theater and Integrity Larry D. Bouchard 2011-08-31 Four decades ago Tom F. Driver brought theater into discussion with religion and modern theology. It has been a rich ongoing dialogue, but one that now demands a bold new engagement. In *Theater and Integrity*, Larry D. Bouchard argues that while the "antitheatrical prejudice" regards theater as

epitomizing the absence of integrity, theater's ways of being realized in ensembles, texts, and performances allow us to reenvision integrity's emergence and ephemeral presence. This book follows such questions across theatrical, philosophical, and theological studies of moral, personal, bodily, and kenotic patterns of integrity. It locates ambiguities in our discourse about integrity, and it delves into conceptions of identity, morality, selfhood, and otherness. Its explorations ask if integrity is less a quality we might possess than a contingent gift that may appear, disappear, and perhaps reappear. Not only does he chart anew the ethical and religious dimensions of integrity, but he also reads closely across the history of theater, from Greek and Shakespearean drama to the likes of Seamus Heaney, T. S. Eliot, Caryl Churchill, Wole Soyinka, Tony Kushner, and Suzan-Lori Parks. His is an approach of juxtaposition and reflection, starting from the perennial observation that theater both criticizes and acknowledges dimensions of drama and theatricality in life.

Thomas Bernhard Gitta Honegger 2001-01-01 Thomas Bernhard (1931-1989), a literary figure of international acclaim and arguably Austria's greatest post-World War II writer, became the first of his generation to expose unrelentingly his country's pathological denial of complicity in the Holocaust. Bernhard's writings and indeed his own biography reflect Austria's fraught efforts to define itself as a nation following the collapse of the Habsburg monarchy and the trauma of World War II. Repeatedly he scandalized the nation with novels, plays, and public statements that exposed the convoluted ways Austrians were attempting to come to terms with their Nazi past--or defiantly avoiding doing so. This book, the first comprehensive biography of Thomas Bernhard in English, examines his life and work and their intricate relationship to Austria's geographical, political, and cultural transformations in the twentieth century. While Bernhard was the scourge of his native culture, Honegger explains, he was also a product of that same culture. Appreciation of his controversial impact on his society is possible only through an understanding of the contradictions, the shame, and the achievements that mark Austrians' self-perception in the postwar years. Honegger shows that for Bernhard the theater was not only a profession but also a paradigm for his life, and that performance was the primary force animating his writing and self-construction. Even after his death, Bernhard's carefully constructed biography continues to fascinate, shock, and expose the Austrian culture at large.

Susan Glaspell's Poetics and Politics of Rebellion Emeline Jouve 2017-07 Analyzing plays from the early *Trifles* (1916) through *Springs Eternal* (1943) and the undated, incomplete *Wings*, author Emeline Jouve illustrates the way that Susan Glaspell's dramas addressed issues of sexism, the impact of World War I on American values, and the relationship between individuals and their communities, among other concerns. Jouve argues that Glaspell turns the playhouse into a courthouse, putting the hypocrisy of American democracy on trial. A must for students of Glaspell and her contemporaries, as well as scholars of American theatre and literature of the first half of the twentieth century.

Impossible Dance Fiona Buckland 2010-06-01 "Impossible Dance is a highly accessible, original and engaging account of the complex and often heavily theorized debates around the body, identity and community. Focusing on gay, lesbian and queer club culture in the 1990s New York City, this is the first book to bring together vital issues such as dance culture, queer community, sex culture, HIV identity and politics. Based on four years of field work, the book takes readers on a journey from the streets of New York City into the dance clubs and onto the dance floor. Detailed interviews with club-goers capture their perspectives on how they stage their self-fashioning through dancing. Fiona Buckland argues that such dancing embodies and rehearses a powerful political imagination, laying claim to the space and to one's body as queer."--Publishers Weekly

Suicide in Modern Literature Josefa Ros Velasco 2022-01-01 This book analyzes the social and contextual causes of suicide, the existential and philosophical reasons for committing suicide, and the prevention strategies that modern fictional literature places at our disposal. They go through the review of Modern fictional literature, in the American and European geographical framework, following the rationales that modern literature based on fiction can serve the purpose of understanding better the phenomenon of suicide, its most inaccessible impulses, and that has the potential to prevent suicide. From the turn of the 20th century to the present, debates over the meaning of suicide became a privileged site for efforts to discover the reasons why people commit suicide and how to prevent this behavior. Since the French sociologist and philosopher Émile Durkheim published his study *Suicide: A Study in Sociology* in 1897, a reframing of suicide took place, giving rise to a flourishing group of researchers and authors devoting their efforts to

understand better the causes of suicide and to the formation of suicide prevention organizations. A century later, we still keep on trying to reach such an understanding of suicide, the nature, and nuances of its modern conceptualization, to prevent suicidal behaviors. The question of what suicide means in and for modernity is not an overcome one. Suicide is an act that touches all of our lives and engages with the incomprehensible and unsayable. Since the turn of the millennium, a fierce debate about the state's role in assisted suicide has been adopted. Beyond the discussion as to whether physicians should assist in the suicide of patients with unbearable and hopeless suffering, the scope of the suicidal agency is much broader concerning general people wanting to die.

The Iranian Diaspora Mohsen Mostafavi Mobasher 2018-10-03 The Iranian revolution of 1978–1979 uprooted and globally dispersed an enormous number of Iranians from all walks of life. Bitter political relations between Iran and the West have since caused those immigrants to be stigmatized, marginalized, and politicized, which, in turn, has discredited and distorted Iranian migrants' social identity; subjected them to various subtle and overt forms of prejudice, discrimination, and social injustice; and pushed them to the edges of their host societies. The Iranian Diaspora presents the first global overview of Iranian migrants' experiences since the revolution, highlighting the similarities and differences in their experiences of adjustment and integration in North America, Europe, Australia, and the Middle East. Written by leading scholars of the Iranian diaspora, the original essays in this volume seek to understand and describe how Iranians in diaspora (re)define and maintain their ethno-national identity and (re)construct and preserve Iranian culture. They also explore the integration challenges the Iranian immigrants experience in a very negative context of reception. Combining theory and case studies, as well as a variety of methodological strategies and disciplinary perspectives, the essays offer needed insights into some of the most urgent and consequential issues and problem areas of immigration studies, including national, ethnic, and racial identity construction; dual citizenship and dual nationality maintenance; familial and religious transformation; politics of citizenship; integration; ethnic and cultural maintenance in diaspora; and the link between politics and the integration of immigrants, particularly Muslim immigrants.

The Theater of Politics Eric B. Gorham 2000 For Hannah Arendt, creating a durable, civil public world was of utmost importance. Though many have discussed Arendt's relevance to the contemporary work of politics, Eric Gorham is the first to examine her ideas of the 'space of appearance' in the context of the university classroom. In *The Theater of Politics*, Gorham examines in detail Arendt's dramaturgical theory of politics and her method of political criticism and maintains that politics can be observed in the classroom, in which students are future political actors and spectators in training. Using Arendt as a theoretical platform, Gorham offers innovative ideas for politicizing the classroom and for reconceptualizing faculty and student community service: If professors and administrators can imagine their tasks in light of lessons learned from classical theater, then students will benefit from a renewed emphasis on teaching. Gorham moves to redraw the basis of political citizenship, criticizing arguments offered by civic republican and communitarian theorists and crafting a richer, more judicious concept of citizenship—one that can be learned and practiced in the political science classroom in particular and in the university in general.

Adapting to the Stage Chris Greenwood 2017-11-01 This title was first published in 2000: The American novelist and playwright, Henry James, was drawn to the theatre and the shifting conventions of drama throughout his writing career. This study demonstrates that from the 1890s onwards James concentrated on adapting his novels and stories to and from the stage, and increasingly employed metaphors that spoke of novel-writing in terms of playwriting. Christopher Greenwood argues that these metaphors helped James to conceive himself as an artist who composed characters dramatically and visually, and in doing so sets his novels significantly apart from those of his contemporaries. In the introduction to the first part of the book, Greenwood examines James's career within the context of contemporary European and North American theatre, providing an appraisal of what James gained from contemporary theatre, his position in that milieu, and what he brought to it. Part 2 of the book focuses on two novels: "The Other House" and "The Spoils of Poynton", both of which illustrate the ways in which James used the mechanism of contemporary theatre to communicate a character's personality. Discussion of these two works is used to throw light on similar concerns that develop in James's later writing.

Addressing issues of identity, memory, authenticity, self-reflection, self-indulgence, and embodied self-representation, the book presents, with both breadth and depth, a look at this fascinating field, gathering contributions by notable professionals around the world. Methods and approaches are illustrated with case examples that range from clients in private practice in California, through students in drama therapy training in the UK, to inmates in Lebanese prisons.

Theater of War and Exile Domnica Radulescu 2015-06-12 In what ways does political trauma influence the art arising from it? Is there an aesthetic of war and exile in theatrical works that emerge from such experiences? Are there cultural markers defining such works from areas like Eastern Europe and Israel? This book considers these questions in an examination of plays, performances and theater artists that speak from a place of political violence and displacement. The author's critical inquiry covers a variety of theatrical experimentations, including Brechtian distancing, black humor, pastiche, surreal and hyper-real imagery, reversed chronologies and disrupted narratives. Drawing on postmodern theories and performance studies as well as interviews and personal statements from the artists discussed, this study explores the transformative power of the theater arts and their function as catalysts for social change, healing and remembrance.

Global Issues in Contemporary Hispanic Women's Writing Estrella Cibreiro 2013 Carolyn Tuttle led a group that interviewed 620 women maquila workers in Nogales, Sonora, Mexico. The responses from this representative sample refute many of the hopeful predictions made by scholars before NAFTA and reveal instead that little has improved for maquila workers. The women's stories make it plain that free trade has created more low-paying jobs in sweatshops where workers are exploited. Families of maquila workers live in one- or two-room houses with no running water, no drainage, and no heat. The multinational companies who operate the maquilas consistently break Mexican labor laws by requiring women to work more than nine hours a day, six days a week, without medical benefits, while the minimum wage they pay workers is insufficient to feed their families. These findings will make a crucial contribution to debates over free trade, CAFTA-DR, and the impact of globalization. The book visits continuities and discontinuities among Spanish and Latin American women with regards to the ways in which they approach writing as a political weapon: to express ecological concerns; to denounce social injustice; to re-articulate existing paradigms, such as local versus global, violence versus pacifism, immigrant versus citizen; and to raise consciousness about racist, sexist, and other discriminatory practices. Such use of writing as an instrument of ethical and political exploration is underlined throughout the different articles in the volume as the authors emphasize pluralism, social justice, gender equality, tolerance, and political representation. This book offers readers a broad perspective on the multiple ways in which Hispanic women writers are explicitly exploring the social, political, and, economic realities of our era and integrating global perspectives and gender concerns into their writing, highlighting the unprecedented level of sociopolitical engagement practiced by 20th and 21st century Hispanic women writers.
