Children's Nature Leslie Paris 2010-05-10 For over a century, summer camps have provided many American children's first experience of community beyond their immediate family and neighborhoods. Each summer, children experience the pain of homesickness, learn to swim, and sit around campfires at night. Children's Nature chronicles the history of the American summer camp, from its invention in the late nineteenth century through its rise in the first four decades of the twentieth century. Leslie Paris investigates how camps came to matter so greatly to so many Americans, while providing a window onto the experiences of the children who attended them and the aspirations of the adults who created them. Summer camps helped cement the notion of childhood as a time apart, at once protected and playful. Camp leaders promised that campers would be physically and morally invigorated by fresh mountain air, simple food, daily swimming, and group living, and thus better fit for the year to come. But camps were important as well because children delighted in them, helped to shape them, and felt transformed by them. Focusing primarily on the northeast, where camps were first founded and the industry grew most extensively, and drawing on a range of sources including camp films, amateur performances, brochures, oral histories, letters home, industry journals, camp newspapers, and scrapbooks, Children's Nature brings this special and

emotionally resonant world to life.

Children of Incarcerated Parents Yvette R. Harris, PhD

2010-03-29 "This important book covers developmental outcomes of children in this predicament, parenting from prison, and family reunification. It is filled with research findings and addresses clinical issues as well. Many children are affected by a parent in the criminal justice system, and this book is sorely needed. The editors and contributors have produced a wonderful resource."

Score: 94, 4 stars --Doody's This book serves as a comprehensive source for understanding and intervening with children of incarcerated parents. The text examines the daunting clinical implications inherent in trauma throughout development, as well as social and political roles in ameliorating intergenerational delinquency. It conceptualizes the problem by using an ecological framework that is focused on the experience of the child. *Children of Incarcerated Parents* addresses developmental and clinical issues experienced throughout the trajectory of childhood and adolescence with a focus on interventions and social policies to improve outcomes for this under-studied group. The chapters explore individual, community, and national levels of policy, programming, and legislation.

Stories in Letters - Letters in Stories Rebekka Schuh 2021-10-04 This book deals with letters in Anglophone Canadian short stories of the late twentieth and the early twenty-first century in the context of liminality. It argues that in the course of the epistolary renaissance, the letter – which has often been deemed to be obsolete in literature – has not only enjoyed an upsurge in novels but also migrated to the short story, thus constituting the genre of the epistolary short story.

The Economic Civil Rights Movement Michael Ezra
2013-04-17 Economic inequalities have been perhaps the most enduring problem facing African Americans since the civil rights movement, despite the attention they have received from activists. Although the civil rights movement dealt successfully with injustices like disenfranchisement and segregated public accommodations, economic disparities between blacks and whites remain sharp, and the wealth gap between the two groups has widened in the twenty-first century. The Economic Civil Rights Movement is a collection of thirteen original essays that analyze the significance of economic power to the black freedom struggle by exploring how African Americans fought for increased economic autonomy in an attempt to improve the quality of their lives. It covers a wide range of campaigns ranging from the World War II era through the civil rights and black power movements and

beyond. The unfinished business of the civil rights movement primarily is economic. This book turns backward toward history to examine the ways African Americans have engaged this continuing challenge. Everyone Has an Everest Sandy Andrews 2003

Everyone Has An Everest is a story of inspiration! If you are looking to be revitalized and renewed, you must read this book. In it the author tells of her 12 year battle with Parkinson's disease. She explains how the disease took her health, her job, her car, her life's savings and her insurance. Ms. Andrews is also an educator with 31 years of experience. The book graphically describes her experiences as an inner city elementary school principal and how she changed a school who had five principals in five years. How she dealt with the debilitating disease and never missed a day of school. It will be useful to Parkinson patients and care givers because it gives specific information on how to obtain social security disability status, how to obtain food stamps, how to get Medicaid, how to deal with depression, Parkinson's Advocates and lobbying legislators. And most importantly, it describes

the operation that gave her a second chance at life.

The Predatory Society Paul Blumberg 1989 Who

knows more about a business's shady practices than the people who work there? In this pioneering study,

Paul Blumberg examines a wide variety of evidence, including over 600 accounts written by workers who disclose in elaborate detail the deceptions their employers practiced on the public. Employed in a wide variety of business enterprises--supermarkets, restaurants, fish markets, department stores, gas stations, drug stores, pet stores, and many more--these workers pull back the curtain and reveal the hidden recesses of the American marketplace. Blumberg documents these deceptions in numerous vivid stories, providing readers with a trenchant handbook on survival in America. He tells of stores that routinely mark prices up before a sale; gas stations that sell regular gas as high test; auto mechanics who spray-paint customers' old car parts and then charge them for new parts (in one gas station, the workers claimed that the mechanic's best tool was his paint can); and pharmacists who sell generic drugs and charge name-brand prices. But equally important, he provides an insightful analysis of why deception pervades the American marketplace. Though at times amusing, *The Predatory Society* is also frequently disturbing for what it says about private capitalism: how dishonesty is all but built into the American marketplace, and how this dishonesty has potentially disastrous effects on trust and community in our society.

nearly 100 years, Indian boarding schools in Canada and the US produced newspapers read by white settlers, government officials, and Indigenous parents. These newspapers were used as a settler colonial tool, yet within these tightly controlled narratives there also existed sites of resistance. This book traces colonial narratives of language, time, and place from the nineteenth-century to the present day, post-Truth and Reconciliation Commission.
